TIMELINE
Week-by-week March 2026 delivery plan

01 — STRATEGIC RATIONALE

Why All Three Identities Must Unify

Mehul Panchal has deliberately maintained three separate digital identities — business on [mehulpanchal.com](#), fitness on Instagram (@mehul2800, 89.5K followers, 922K views/month), and devotional singing on YouTube (@MehulPanchal). This was a conscious, disciplined choice. The redesigned website must now honour that intentional separation while creating a master destination that reveals the complete person behind all three.

The Three Dimensions Are Amplifiers, Not Competitors

The discipline that produces a body capable of generating 2.4 million Instagram views in a single reel is the same discipline that built Filter Concept from a Rs. 10,000 investment to 5,000+ customers across 90+ countries. The spiritual clarity expressed through Shiv Mahimna Stotram is the same clarity that drives bold business decisions. When presented together — as The Builder, The Warrior, and The Seeker — Mehul Panchal becomes a category of one.

The Hub & Spoke Model

Each platform remains the specialist destination. Instagram is the Warrior's arena. YouTube is the Seeker's stage. LinkedIn is the Builder's boardroom. But [mehulpanchal.com](#) is the master hub — the place where every audience arrives to discover the complete Mehul Panchal.

PLATFORM	PRIMARY AUDIENCE	FOCUS	LINKS TO
Instagram @mehul2800	Fitness / lifestyle	Physique, discipline, aesthetics	mehulpanchal.com → Warrior page
YouTube @MehulPanchal	Devotional / spiritual	Bhajans, stotra, sacred music	mehulpanchal.com → Seeker page

mehulpanchal.com	ALL audiences — unified	The complete human story	All pages + all ventures

02 — BRAND IDENTITY & COLOUR PALETTE

Visual Language, Fresh Palette & Tone

Positioning Statement

"Mehul Panchal is not defined by a single dimension. He is the Builder who constructed a global filtration empire from Rs. 10,000. The Warrior who sculpts his body with the same rigour he applies to business. The Seeker who finds clarity through sacred music. His personal website is the world's first glimpse of all three — in one place, in one person."

Design Aesthetic

The current mehulpanchal.com (copyright 2017) uses a generic light-grey WordPress template. That must be fully discarded. The new site should mirror the energy of Mehul's Instagram — cinematic, dramatic, modern — while adding warmth, vibrancy and freshness that the old gold/black approach lacked. Think: a premium editorial magazine meets a modern entrepreneur's digital identity.

THE COLOUR PALETTE — Fresh, Vibrant, Premium

DESIGN DIRECTION NOTE: The palette is intentionally NOT gold and black. Gold reads as dated and generic. The new palette uses Deep Navy + Vibrant Teal + Warm Saffron — a combination that is modern, energetic, distinctly Indian in warmth, yet globally premium. This directly reflects the three dimensions: Teal = analytical/clarity (Builder), Saffron = energy/fire (Warrior), Navy = depth/wisdom (Seeker).

COLOUR NAME	HEX	PERSONALITY	USAGE
Deep Navy (Primary)	#0B1F3A	Depth · Stability · Wisdom	Primary background, nav, footers, dark sections
Vibrant Teal (Accent 1)	#00B4C8	Clarity · Energy · Intelligence	CTAs, headings on dark, dividers, links, hover states
Teal Dark	#008FA0	Focused · Professional	Sub-headings, icon accents, table headers
Warm Saffron (Accent 2)	#F5793A	Fire · Discipline · Warmth	Secondary CTAs, The Warrior section, hover highlights
Saffron Light	#FFF1EB	Openness · Approachability	Card backgrounds, alternating section washes
Teal Light / Wash	#E0F7FA	Freshness · Clean	Highlight boxes, info panels, card washes
Slate	#3B4F66	Grounded · Balanced	Mid-section backgrounds, tertiary elements
Light Blue-Gray	#F4F7FA	Spacious · Minimal	Main light section backgrounds, breathing space
Mid Gray	#7A8FA6	Supporting	Body text support, captions, metadata
White	#FFFFFF	Clean · Premium	Body text on dark, form fields, clean panels

Typography

ROLE	RECOMMENDED FONT	SIZE / WEIGHT	NOTES
------	------------------	---------------	-------

Hero / Display	Playfair Display	52–64px / Bold	Large, elegant, editorial — Playfair Display via Google Fonts
Section Headings H2	Montserrat	28–36px / Bold	Strong, modern, geometric
Sub-headings H3	Montserrat	18–22px / SemiBold	Clean hierarchy
Body Copy	Inter	16–18px / Regular	Highly readable on all screen sizes
Labels / Tags	Montserrat	10–12px / Bold, ALL CAPS	Letter-spacing: +2px for luxury feel
Navigation	Montserrat	13px / SemiBold, ALL CAPS	Sticky nav — clean and assertive
Quote / Callout	Playfair Display Italic	20–24px	Pull quotes, hero sub-text, signature

Tone of Voice

USE THIS VOICE:

- Confident, direct, declarative
- Short punchy sentences for impact
- First-person: 'I built', 'I believe'
- Philosophical and reflective
- Factual achievement statements
- Emotionally resonant without sentimentality

AVOID THIS:

- Corporate buzzwords and jargon
- Long paragraphs — keep it punchy
- Generic motivational clichés
- Third-person bio tone throughout
- Boastful self-promotion
- Over-designed, cluttered layouts

03 — SITE ARCHITECTURE

Page Map, Navigation & URL Structure

The website has 10 primary pages. Navigation is sticky, minimal, and elegant. The menu uses Mehul's three dimensions as the primary narrative organiser, with supporting pages for Ventures, Media, and Contact.

Note to Designer

This document is a complete, self-contained design brief. No discovery calls are required to start. All design decisions not explicitly specified should default to the aesthetic principles in Section 02 — fresh, vibrant, modern, generous spacing. When in doubt: less text, more visual impact. The Varun Tyagi photography is this site's greatest visual asset — use it boldly and at full scale.

"Building Systems. Living Discipline. Seeking Meaning."
